

**Allied Landfill – OU1,
Proposed Plan Briefing
July 16, 2015**

Proposed Remedy:

Alternative 2D:

- Consolidation of contaminated materials into 27 acre landfill and long-term monitoring.
- Redevelopment of capped and uncapped areas.
- Cost: \$63M (does not include added costs of fill for redevelopment or any cost savings of using city inert fly-ash)

Schedule/Status:

- Draft Proposed Plan to State, HQ and ORC before July 22nd.
- Finalize by September 30th.

Stakeholder Support:

- City will make a public statement before Proposed Plan and another after Proposed Plan
 - Prefer total removal, but can work with this alternative and provide stewardship.
- KRCC:
 - Public statement around time of Proposed Plan that all remedies in FS protective
 - Currently working with EPA on expanding FAQs and localized outreach
 - Working with EPA on expanded outreach during Public Comment Period
 - Bookend the public hearing with availability/discussion sessions

No Date
